

# The ElderConnection

Wednesday October 27, 2010

TOPIC:

**“Barrier Free - What does it take?”**

with

**Saul Berlin & Sharron Regran**  
**THE CONSTRUCTION GROUP**

Living with limited mobility or caring for a loved-one with a disability is a challenge, both physically and emotionally. Often, it is necessary to modify the home to accommodate changing needs. Modifications could include enlarging a doorway to installing an elevator, or anything in between.

Saul and Sharron will talk about those things that the client and contractor must consider when making a home barrier free; i.e. what is or isn't possible from a contractors perspective. They will also focus on a number of topics including: exterior access; interior accessibility; and those two very important living spaces the bathroom and kitchen.
